VENDOR: MRS G WILLIAMS

Lots **DEXTER – HERD DISPERAL**

489 - 505

Dispersal of the MAGILL Herd of 17 Dexter Cattle

Mrs Gill Williams has been breeding Dexter cattle since the late 80s first under the prefix of Beeches and lately as the Magill Herd. The herd had much show success in the late 80s and in the 90s. A change in circumstances meant the showing of the herd became impossible and the herd was moved to a new farm. Daily management was taken on by Mrs Williams' father Mr John Madeley, who until four years ago multi suckled all cows. Since then the cows have cared for their own calf.

Due to a change in career and the age of Mr Madeley (81) Mrs Williams has taken the decision to sell the remaining cattle.

The herd comprises mainly unregistered Dexter cattle, but bred from sound Pedigree lines. Full breeding details will be available at time of sale, but the herd briefly comprises:

- 6** **Cows and Heifers with calves at foot, born March to May**
- 3** **Heifers, 2007 born, running with Bull since 3rd July**
- 1** **Maiden Heifer – April 2008 born**
- 1** **Bull (Mount Glen bred_ November 2002**

VENDOR: MESSRS GOULD
