Longhorn Cattle Society CIO Constitution

1 NAME

The name of the Charitable Incorporated Organisation ('the CIO') is the Longhorn Cattle Society

2 NATIONAL LOCATION OF PRINCIPAL OFFICE

The CIO must have a principal office in England or Wales. The principal office of the CIO is in England.

3 OBJECTS

The objects of the CIO are:

- To encourage, promote and improve the breeding of Longhorn Cattle and to maintain their purity;
- To maintain a Herdbook of Longhorn Cattle

In furtherance to the above objects but not further or otherwise the Society shall have the following powers:

- To promote shows and/or sales for Longhorn Cattle;
- To do all things necessary for the attainment of the above objects

Nothing in this constitution shall authorise an application of the property of the CIO for the purposes which are not charitable in accordance with [section 7 of the Charities and Trustee Investment (Scotland) Act 2005] and [section 2 of the Charities Act (Northern Ireland) 2008]

4 POWERS

The CIO has power to do anything which is calculated to further its object[s] or is conducive or incidental to doing so. In particular, the CIO's powers include power to:

- 4.1 borrow money and to charge the whole or any part of its property as security for the repayment of the money borrowed. The CIO must comply as appropriate with sections 124 and 125 of the Charities Act 2011 if it wishes to mortgage land;
- 4.2 buy, take on lease or inexchange, hire or otherwise acquire any property and to maintain and equip it for use;
- 4.3 sell, lease or otherwise dispose of all or any part of the property belonging to the CIO. In exercising this power, the CIO must comply as appropriate with sections 117 and 119-123 of the Charities Act 2011.
- 4.4 employ and remunerate such staff as are necessary for carrying out the work of the CIO. The CIO may employ or remunerate a charity trustee only to the extent that it is permitted to do so by clause 6 (Benefits and payments to charity trustees and connected persons) and provided it complies with the conditions of those clauses;
- 4.5 deposit or invest funds, employ a professional fund-manager, and arrange for the investments or other property of the CIO to be held in the name of a nominee, in the same manner and subject to the same conditions as the trustees of a trust are permitted to do by the Trustee Act 2000;

5. APPLICATION OF INCOME AND PROPERTY

5.1 The income and property of the CIO must be applied solely towards the promotion of the objects:

- 5.1.1 A charity trustee is entitled to be reimbursed from the property of the CIO or may pay out of such property reasonable expenses properly incurred by him or her when acting on behalf of the CIO.
- 5.1.2 A charity trustee may benefit from trustees indemnity insurance cover purchased at the CIO's expense in accordance with, and subject to the conditions in, section 189 of the Charities Act 2011.

- 5.2 None of the income or property of the CIO may be paid or transferred directly or indirectly by way of a dividend, bonus or otherwise by way of profit to any member of the CIO. This does not prevent a member who is not also a charity trustee receiving:
- 5.2.1 a benefit from the CIO as a beneficiary of the CIO;
 - 5.2.2 reasonable and proper remuneration for any goods or services supplied to the CIO.
- 5.3 Nothing in this clause shall prevent a charity trustee or connected person receiving any benefit or payment which is authorised by Clause 6.

6 BENEFITS AND PAYMENTS TO CHARITY TRUSTEES AND CONNECTED PERSONS

6.1 General provisions

No charity trustee or connected person may:

- 6.1.1 buy or receive any goods or services from the CIO on terms preferential to those applicable to members of the public;
- 6.1.2 sell goods, services, or any interest in land to the CIO;
- 6.1.3 be employed by, or receive any remuneration from, the CIO;
- 6.1.4 received any other financial benefit from the CIO

Unless the payment or benefit is permitted by sub-clause 6.2 of this clause, or authorised by the court of the Charity Commission ('the Commission'). In this clause, a 'financial benefit' means a benefit, direct or indirect, which is either money or has a monetary value.

6.2 Scope and powers permitted trustees' or connected persons' benefits

- 6.2.1 A charity trustee or connected person may receive a benefit from the CIO as a beneficiary of the CIO provided that a majority of the trustees do not benefit in this way.
- 6.2.2 A charity trustee or connected person may enter into a contract for the supply of services, or of goods that are supplied in connection with the provision of services, to the CIO where that is permitted in accordance with, and subject to the conditions in, section 185 to 188 of the Charities Act 2011.
- 6.2.3 Subject to sub-clause 6.3 of this clause a charity trustee or connected person may provide the CIO with goods that are not supplied in connection with services provided to the CIO by the charity trustee or connected person
- 6.2.4 A charity trustee or connected person may receive interest on money lent to the CIO at a reasonable and proper rate which must not be more than the Bank or England bank rate (also known as the base rate).
- 6.2.5 A charity trustee or connected person may receive rent for the premises let by the trustee or connected person to the CIO. The amount of the rent and the other terms of the lease must be reasonable and proper. The charity trustee concerned must withdraw from any meeting at which such a proposal or the rent or other terms of the lease are under discussion.
- 6.2.6 A charity trustee or connected person may take part in the normal trading and fundraising activities of the CIO on the same terms as members of the public.

6.3 Payment for supply of goods only – controls

The CIO and its charity trustees may only rely upon the authority provided by sub-clause 6.3.3 of this clause if each of the following conditions is satisfied:

- 6.3.1 The amount or maximum amount of the payment for the goods is set out in a written agreement between the CIO and the charity trustee or connected person supplying the goods ('the supplier').
- 6.3.2 The amount of maximum amount of the payment for the goods does not exceed what is reasonable in the circumstances for the supply of the goods in question.
- 6.3.3 The other charity trustees are satisfied that it is in the best interests of the CIO to contract with the supplier rather than with someone who is not a charity trustee or connected person. In reaching that decision the charity trustees must balance the advantage of contracting with a charity trustee or connected person against the disadvantages of doing so.

- 6.3.4 The supplier is absent from the part of any meeting at which there is a discussion of the proposal to enter into a contract or arrangement with hm or her or it with regard to the supply of goods to the CIO.
 - 6.3.5 This supplier does not vote on any such matter and is not to be counted when calculating whether a quorum of charity trustees is present at the meeting.
 - 6.3.6 The reason for their decision is recorded by the charity trustees in the minute book.
 - 6.3.7 A majority of the charity trustees then in office are not in receipt of remuneration or payments authorised by clause 6.
- 6.4 In sub clause 6.3 and 6.3 of this clause:
- 6.4.1 'the CIO' includes any company in which the CIO:
 - (a) Holds more than 50% of the shares; or
 - (b) Controls more than 50% of the voting rights attached to the shares; or
 - (c) Has the right to appoint one or more directors to the board of the company;
 - 6.4.2 'connected person' includes any person within the definition set out in Clause 30 (Interpretation)

7 CONFLICTS OF INTEREST AND CONFLICTS OF LOYALTY

A charity trustee must:

- 7.1 declare the nature and extent of any interest, direct or indirect, which he or she has in a proposed transaction or arrangement with the CIO or in an transaction or arrangement entered into by the CIO which has not previously been declared; and
- 7.2 absent himself or herself from any discussions of the charity trustees in which it is possible that a conflict of interest will arise between his or her duty to act solely in the interested of the CIO and any personal interest (including but not limited to any financial interest)

9.6.1 The charity trustees may create associate or other classes of voting or non-voting membership, and may determine the rights and obligations of voting of any such members (including payment of membership fees), and the conditions for admission to, and termination of membership of any such class of members.

9.6.2 Other references in this constitution to 'members' and 'membership' do not apply to non-voting members, and non-voting members do not qualify as members for any purpose under Charities Acts, General Regulations or Dissolution Regulations.

- 11.8.3 If postal and/or email voting is to be allowed on a matter, the CIO must send to members of the CIO not less than 21 days before the deadline for receipt of votes cast this way:
 - (a) A notice by email, if the member has agreed to receive notices in this way under clause 21 (Use of electronic communication, including an explanation of the purpose of the vote and the voting procedure to be followed by the member, and a voting form capable of being returned by email or post to the CIO, containing details of the resolution being put to a vote, or of the candidates for election, as applicable.
 - (b) A notice by post to all other members, including a written explanation of the purpose of the postal vote and the voting procedure to be followed by the member, and a postal voting form containing details of the resolution being put to a vote, or of the candidates for election, as applicable.
 - (c) The voting procedure must require all forms returned by post to be in an envelope with the member's name and signature, and nothing else, on the outside, inside another envelope addressed to 'The Scrutinisers for the [name of the CIO]' at the CIO's principal office or such other postal address as is specified in the voting procedure.
 - (d) The voting procedure for votes cast by email must require the member's name to be at the top of the email, and the email must be authenticated in the manner specified in the voting procedure.

- (f) The voting procedure must specify the closing date and time for receipt of votes, and must state that any votes received after the closing date or not complying with the voting procedure will be invalid and not be counted.

The scrutineers must provide to the person chairing the meeting written confirmation of the number of valid votes received by post and email and the number of votes received which were invalid.
- (j) The scrutineers must not disclose the result of the postal/email ballot until after the votes taken by hand or by poll at the meeting, or by poll after the meeting, have been counted. Only at this point shall the scrutineers declare the result of the valid votes received, and these votes shall be included in the declaration of the result of the vote.
- (k) Following the final declaration of the result of the vote, the scrutineers must provide to a charity trustee or other authorised person bundles containing evidence of members submitting valid email votes; evidence of invalid votes; the valid votes; and the invalid votes.
- (l) Any dispute about the conduct of a postal or email ballot must be referred initially to a panel set up by the charity trustees, to consist of two trustees and two persons independent of the CIO. If the dispute cannot be satisfactorily resolved by the panel, it must be referred to the Electoral Reform Society.

SUPPLEMENTARY REGISTER

From 1 January 1982 the Longhorn Cattle Society provided a Register for the admission into the Herd Book of Pure-Bred Longhorn female cattle that had not previously been registered for various reasons. Class A of this register was closed on 31 December 2009 to new unknown cows, but will remain open to the offspring of unregistered cattle that already have offspring registered with the Society.

CLASS A – Female progeny of a pure-bred Longhorn cow with a non traceable pedigree having previously had calves notified to the Society, by a registered Longhorn Bull.

CLASS B – Female progeny of a 'A' grade cow by a registered Longhorn bull.

CLASS C –Female progeny by a registered Longhorn bull, and out of a Class B female, thus having two registered parents.

Female progeny by a registered Longhorn bull, out of a Class C female will be eligible for the Herd Book proper.

MALES: Males are only eligible for registration only if both their parents are registered in the Herdbook proper.

SHOWS: Steers and heifers (excluding heifers out of Class C) will be eligible to compete in Primestock Show Classes only.

The Council reserves the right to put cattle into a particular grade according to the evidence produced.

REGISTRATION – Photographs identifying the animals applying for admission in the supplementary register should be submitted with the application

EMBRYO TRANSPLANT REGULATIONS

Prior to collection

- 1 The collection and transfer of embryos shall be carried out by a recognised operator or embryo transfer station or unit.

Collection

- 2 A copy of each Embryo Registration Form and Embryo Amendment Form must be sent to the Society within 30 days of collection, freezing, transfer etc.
- 3 If the service bull is not already DNA typed, hair samples should be sent to the office for DNA typing. This will be at the member's expense, charged at cost.
- 4 If the donor female is not already DNA typed, hair samples should be sent to the office for DNA typing. This will be at the member's expense, charged at cost.
- 5 If the donor female was artificially inseminated, or served naturally by a bull not owned by the owner of the donor female, the relevant insemination certificate or certificate of service must accompany the Embryo Registration Form.
- 6 A donor female may be bred to more than one bull at any one heat period only if the bulls concerned have been DNA typed and the DNA types are sufficiently distinct to allow their progeny to be separated.

Embryos

- 7 If an embryo is sold or transferred to other ownership by the owner of the donor female, either unfrozen, frozen or in a recipient female, the Society must be informed via a Embryo Amendment Form.
- 8 If at one and the same time more than one embryo is transferred to a recipient, those embryos must be of the same parentage.
- 9 Recipient dams need not be registered with the Society.
- 10 In calf recipients, or recipients with ET calves at foot can be sold at official Society shows and sales.

Embryo Transfer Calves

- 11 The member notifying the birth of a calf resulting from an embryo transfer must insert the letters "ET" in the extreme right hand column of the birth notification form, or by selecting the 'ET' option on the online registration form. "ET" will be inserted as a suffix. All notifications must be made within the standard time limits.
- 12 Should registration of an animal born as a result of embryo transplant be applied for, the animal must be parent verified by sending a hair sample to the office for parent verification. This will be at the member's expense, charged at cost. The animal will only be registered once the parentage has been verified.

Registration fees:

- 13 Registrations fees for heifers and bulls born as a result of ET will be the same as those detailed on the previous page of the Herdbook, and will be subject to the same late registration fees. Bulls will be subject to the inspection and weight regulation rules in force at the time of registration
- 14 Animals or embryos sold for export must be accompanied by a pedigree export certificate obtained from the Society.

Notwithstanding these regulations, all other Society rules and regulations will apply to the conduct and manner for any embryo transplant programme.

The Council reserves the right to amend, alter or make additions to these regulations as and when they think fit.

(Amended 2019)

Longhorn Cattle Society Polled Register

The Longhorn Cattle Society Polled register was established in 1984 and is subject to the following rules agreed at the Society AGM 24th Nov 1984.

1. There is a straight forward grading up scheme to 31/32nds (ie 5 top crosses)
2. No bull may be registered until it is out of a fourth grade cow.
3. The first cross poll female should be the progeny of one pedigree Longhorn parent while the other parent shall be of pure beef breeding.
4. After the first cross each subsequent generation must be by a pedigree Longhorn bull.
5. No horned progeny of polled cattle will be eligible for registration in either herd book.
6. The word 'Poll' must appear as part of the name of every animal in the poll register.
7. Animals in the Poll register should be tattooed with the herd Number, followed by the letter 'P'. Beneath this should be the year letter (D for 1985), the individual number and finally the grade, A.B.C.D.P.
8. All breeders of polled cattle wishing to register them, must pay the Longhorn Cattle Society a separate herd Registration fee of £10 plus VAT.
9. All registrations must be made through the Longhorn Cattle Society Registrations Office at the same rate (currently £25+VAT) and under the same rules as for pedigree Longhorn calves.
10. It was further agreed at the subsequent Council Meeting that the Polled Register should not be promoted in any Longhorn literature and that the polled animals should not appear in the main Herd Book.
11. A list of animals registered in the Polled Register is available from the Society office.

ONLINE VIRTUAL SHOW

5-8 September 2020

Judge: Clive & Tom Davies

The Society's grateful thanks go to Clive and Tom Davies for judging the cattle classes, and to Ruby Wright for judging the Young Handlers.

Clive Davies is on the Society's judging panel and along with his son Tom runs the Westwood herd of Herefords. Clive was one of our technical speakers at last year's AGM and he is judging the Northern Longhorn Breeders' herd competition this year.

Ruby has been showing cattle from a young age. She won numerous young handler championships she has shown for many people including Padfield and Barwood. She started her own herd of Angus at around the age of 13 and she now lives in Yorkshire running a tenant farm with her boyfriend Tom Hill, currently running 1000 ewes and 60 pedigree Simmental cows.

Clive and Tom commented:

'Every show salutes its Champions and no exceptions here. Both winning females are great ambassadors for the breed, the Champion every bit the winner and her future will be followed with interest. The Runner-up is a practical and working breeder that will impress many.

Impressive too is the whole concept of the Virtual Show at this time. Many congratulations to Cloud-Lines-Shows for their innovation. To those that designed, administered and facilitated the event, your achievement was great. The exhibitors and their teams of helpers, including of course the operators of the cameras, have performed sterling work. In this setting, the eye appeal of the photographic images are critical but stills photography does not always give an accurate picture! The inclusion of videos of the right length are essential. From a livestock technical point of view, the comparisons of growth and scale cannot be accurately assessed when compared with the live showing situation, but perhaps this is good? It is surely much better to concentrate on the importance of traits like construction, conformation and breed characteristics? All of this work and method of promotion will surely be very important going forwards. This event has been a learning curve and more positive developments can be considered going forwards.

We have very much enjoyed our involvement with your Virtual Show. Many thanks for the invitation. We wish the Longhorn Breed good fortune in the times ahead. Clearly the Breed is in safe hands!

REGIONAL GROUP HERD COMPETITION RESULTS

REGIONAL GROUPS

Longhorn breeders in different parts of the country have formed regional groups and organise herd visits, social events and herd competitions. They form a focal point for getting to know other like minded people and provide a potential for gaining stock and knowledge. All the groups are run by volunteers and enthusiastic group members, young and old, experienced or complete beginners are always welcome. Please do get in touch with your local support group co-ordinator and get involved in group activities.

NORTHERN LONGHORN BREEDERS' CLUB Herd Competition 2020 Judge: Clive Davies

With travelling completed, it was reflection time. Given all the circumstances of 2020, it was a fine achievement to get the event to this stage. It is to be believed that all participants remained in good health, other than the judge, it was reported, that suffered the headache of decision-making!!

Apart from meeting with Longhorn breed advocates and inspecting inspiring cattle, a number of discussion points surfaced. Phenotype would be one. Whatever anyone involved in the beef industry might wish for, it is the marketplace that dictates. These requirements continually change and the pedigree breeder has to with or more precisely ahead of the changes. This is a challenge but when got right, is very rewarding. For the leaders in any breed, it is those that are generally ahead of the game that can best achieve. In fact, through history, of the most noted stock breeders, it is those that can work with a suitable eye some ten years ahead that most succeed.

Other considerations were in connection with the future course of the British beef industry. It much looks as though it will revolve around docile animals, because the number of people charged with the husbandry are more likely to reduce than increase and the stock that can develop best with foraged based diets will become the most popular. It is probable therefore that breeds will converge towards a more ideal type. This can already be identified by the work done by the Creech family of Quantock in Canada. They produce breeding bulls of Black Angus, Red Angus, Herefords and Charolais, as well as a number of hybrids. Mac and the team offer around 400 bulls for sale by auction on the last Saturday of January each year. Every section may carry its own breed characteristics but in general the 'type' is very similar across them. Check them out at Canadasbulls.com

Another topic to watch is that of the Stabiliser Cattle. Personally, I'm not a fan of composite type genetics. I would prefer breeding with pure-breds and using a breed of male on a female, the cross of two breeds. This, I believe, leads to more consistent results and is much helped by hybrid vigour. However, the Stabilisers do have a great blueprint for beef production and this is well worth studying.

Finally, one other debating point that often arose during the tour was, what to do with the Longhorns' horns? The relatively recent decision of the Breed Council to give dehorned Longhorns the same platform has fully horned stock has its supporters and opponents. Well, breeders should always do that which is within the rules that best suits their ambitions. Our horned genetic Hereford herd is 100% disbudded at calving time. This best suits our stock management and customer base. However, we have never opted for breeding polled cattle because this would change our genetic make up. A step too far!! But, as off the case, these choices may be taken from us by the zealous opinion of those that think that they know best. Whether with horns or without them, I much like the options that today's Longhorns offer. Please nurture them. All breed programmes are only as good as the breeders conducting them.

A comment of thanks for the kind invitation to attend your properties and adjudicate the wonderful competition. Often, forming orders of merit is a difficult task. This was but very enjoyable in every respect. At a showground comparison can clearly be made but there is something extra about seeing animals in their natural settings. I like both types of events. Regarding presentation, it is generally best to arrange the various sections and age groups of the herd into their respective lots so as to give them all the best stage. All of this considered it is now time to relieve that headache! The results.....

Bulls Hit Trophy

For the most wonderful contribution. There is a short list but it is quite long!

Milton Bank: Walking me up and down what must have been the steepest field in Cheshire.

Kirklan: In every respect, including the livestock, a feeling of security.

Gale Farm: For hosting what must have been the best attended livestock event of summer 2020.

Ellwood: Enthusiastic success.

Mandathorn: Honest hard work with results.

Houghton: Positively close to the natural way.

Paragon and Beaufront: Sheer co-operation!

Broomfield: Mind-blowing energy and family commitment.

Marindin: The top contender for the most challenging of farm driveways.

Aberdeen: The 3Cs: Construction, Conformation and Character.

Bielside: A relatively new enterprise with cattle at its heart.

Logie: Best design in log cabins.

Fishwick: The economic theories of Peter Close.

Garford: Impressive, well-fed beef.

Raby: For long establishment yet great potential.

Harold: So much of interest and to follow-up upon.

Settrington: The tidiest farm yard accolade.

Newton: Spot-on cattle but also Graham Walker's exceptional organisational skills.

Southfield and Associates: The strength is in the family and the cattle families.

Additionally, some top horticultural presentations, in no particular order:

Raby Castle, Logie and Mrs Metcalf's garden.

However, the winner is.....

With encouraging cattle genetics but mainly because of sheer determination and without stable and secure land availability, this is not easy, and I can testify to this, the year's taker of the Bulls Hit trophy must be.....

Vicki Hopkinson, Briar Mead Herd

CONGRATULATIONS to her!!!!
