Longhorn Cattle Society CIO Constitution

1 NAME

The name of the Charitable Incorporated Organisation ('the CIO') is the Longhorn Cattle Society

2 NATIONAL LOCATION OF PRINCIPAL OFFICE

The CIO must have a principal office in England or Wales. The principal office of the CIO is in England.

3 OBJECTS

The objects of the CIO are:

- To encourage, promote and improve the breeding of Longhorn Cattle and to maintain their purity;
- To maintain a Herdbook of Longhorn Cattle

In furtherance to the above objects but not further or otherwise the Society shall have the following powers:

- To promote shows and/or sales for Longhorn Cattle;
- To do all things necessary for the attainment of the above objects

Nothing in this constitution shall authorise an application of the property of the CIO for the purposes which are not charitable in accordance with [section 7 of the Charities and Trustee Investment (Scotland) Act 2005] and [section 2 of the Charities Act (Northern Ireland) 2008]

4 POWERS

The CIO has power to do anything which is calculated to further its object[s] or is conducive or incidental to doing so. In particular, the CIO's powers include power to:

- 4.1 borrow money and to charge the whole or any part of its property as security for the repayment of the money borrowed. The CIO must comply as appropriate with sections 124 and 125 of the Charities Act 2011 if it wishes to mortgage land;
- 4.2 buy, take on lease or in exchange, hire or otherwise acquire any property and to maintain and equip it for use;
- 4.3 sell, lease or otherwise dispose of all or any part of the property belonging to the CIO. In exercising this power, the CIO must comply as appropriate with sections 117 and 119-123 of the Charities Act 2011.
- 4.4 employ and remunerate such staff as are necessary for carrying out the work of the CIO. The CIO may employ or remunerate a charity trustee only to the extent that it is permitted to do so by clause 6 (Benefits and payments to charity trustees and connected persons) and provided it complies with the conditions of those clauses;
- 4.5 deposit or invest funds, employ a professional fund-manager, and arrange for the investments or other property of the CIO to be held in the name of a nominee, in the same manner and subject to the same conditions as the trustees of a trust are permitted to do by the Trustee Act 2000;

5. APPLICATION OF INCOME AND PROPERTY

5.1 The income and property of the CIO must be applied solely towards the promotion of the objects:

- 5.1.1 A charity trustee is entitled to be reimbursed from the property of the CIO or may pay out of such property reasonable expenses properly incurred by him or her when acting on behalf of the CIO.
- 5.1.2 A charity trustee may benefit from trustees indemnity insurance cover purchased at the CIO's expense in accordance with, and subject to the conditions in, section 189 of the Charities Act 2011.

- 5.2 None of the income or property of the CIO may be paid or transferred directly or indirectly by way of a dividend, bonus or otherwise by way of profit to any member of the CIO. This does not prevent a member who is not also a charity trustee receiving:
- 5.2.1 a benefit from the CIO as a beneficiary of the CIO;
 - 5.2.2 reasonable and proper remuneration for any goods or services supplied to the CIO.
- 5.3 Nothing in this clause shall prevent a charity trustee or connected person receiving any benefit or payment which is authorised by Clause 6.

6 BENEFITS AND PAYMENTS TO CHARITY TRUSTEES AND CONNECTED PERSONS

6.1 General provisions

No charity trustee or connected person may:

- 6.1.1 buy or receive any goods or services from the CIO on terms preferential to those applicable to members of the public;
- 6.1.2 sell goods, services, or any interest in land to the CIO;
- 6.1.3 be employed by, or receive any remuneration from, the CIO;
- 6.1.4 received any other financial benefit from the CIO

Unless the payment or benefit is permitted by sub-clause 6.2 of this clause, or authorised by the court of the Charity Commission ('the Commission'). In this clause, a 'financial benefit' means a benefit, direct or indirect, which is either money or has a monetary value.

6.2 Scope and powers permitted trustees' or connected persons' benefits

- 6.2.1 A charity trustee or connected person may receive a benefit from the CIO as a beneficiary of the CIO provided that a majority of the trustees do not benefit in this way.
- 6.2.2 A charity trustee or connected person may enter into a contract for the supply of services, or of goods that are supplied in connection with the provision of services, to the CIO where that is permitted in accordance with, and subject to the conditions in, section 185 to 188 of the Charities Act 2011.
- 6.2.3 Subject to sub-clause 6.3 of this clause a charity trustee or connected person may provide the CIO with goods that are not supplied in connection with services provided to the CIO by the charity trustee or connected person
- 6.2.4 A charity trustee or connected person may receive interest on money lent to the CIO at a reasonable and proper rate which must not be more than the Bank or England bank rate (also known as the base rate).
- 6.2.5 A charity trustee or connected person may receive rent for the premises let by the trustee or connected person to the CIO. The amount of the rent and the other terms of the lease must be reasonable and proper. The charity trustee concerned must withdraw from any meeting at which such a proposal or the rent or other terms of the lease are under discussion.
- 6.2.6 A charity trustee or connected person may take part in the normal trading and fundraising activities of the CIO on the same terms as members of the public.

6.3 Payment for supply of goods only – controls

The CIO and its charity trustees may only rely upon the authority provided by sub-clause 6.3.3 of this clause if each of the following conditions is satisfied:

- 6.3.1 The amount or maximum amount of the payment for the goods is set out in a written agreement between the CIO and the charity trustee or connected person supplying the goods ('the supplier').
- 6.3.2 The amount of maximum amount of the payment for the goods does not exceed what is reasonable in the circumstances for the supply of the goods in question.
- 6.3.3 The other charity trustees are satisfied that it is in the best interests of the CIO to contract with the supplier rather than with someone who is not a charity trustee or connected person. In reaching that decision the charity trustees must balance the advantage of contracting with a charity trustee or connected person against the disadvantages of doing so.

- 6.3.4 The supplier is absent from the part of any meeting at which there is a discussion of the proposal to enter into a contract or arrangement with him or her or it with regard to the supply of goods to the CIO.
 - 6.3.5 This supplier does not vote on any such matter and is not to be counted when calculating whether a quorum of charity trustees is present at the meeting.
 - 6.3.6 The reason for their decision is recorded by the charity trustees in the minute book.
 - 6.3.7 A majority of the charity trustees then in office are not in receipt of remuneration or payments authorised by clause 6.
- 6.4 In sub clause 6.3 and 6.3 of this clause:
- 6.4.1 'the CIO' includes any company in which the CIO:
 - (a) Holds more than 50% of the shares; or
 - (b) Controls more than 50% of the voting rights attached to the shares; or
 - (c) Has the right to appoint one or more directors to the board of the company;
 - 6.4.2 'connected person' includes any person within the definition set out in Clause 30 (Interpretation)

7 CONFLICTS OF INTEREST AND CONFLICTS OF LOYALTY

- 7.1 declare the nature and extent of any interest, direct or indirect, which he or she has in a proposed transaction or arrangement with the CIO or in an transaction or arrangement entered into by the CIO which has not previously been declared; and
- 7.2 absent himself or herself from any discussions of the charity trustees in which it is possible that a conflict of interest will arise between his or her duty to act solely in the interested of the CIO and any personal interest (including but not limited to any financial interest)

9.6.1 The charity trustees may create associate or other classes of voting or non-voting membership, and may determine the rights and obligations of voting of any such members (including payment of membership fees), and the conditions for admission to, and termination of membership of any such class of members.

9.6.2 Other references in this constitution to 'members' and 'membership' do not apply to non-voting members, and non-voting members do not qualify as members for any purpose under Charities Acts, General Regulations or Dissolution Regulations.

- 11.7.3 Proxy notices may (but do not have to) specify how the proxy appointed under them is to vote (or that the proxy is to abstain from voting) on one or more resolutions.
- 11.7.4 Unless a proxy notice indicates otherwise, it must be treated as:
 - (a) Allowing the person appointed under it as a proxy discretion as to how to vote on any ancillary or procedural resolutions put to the meeting; and
 - (b) Appointing that person as a proxy in relation to any adjournment of the general meeting to which it relates as well as the meeting itself.
- 11.7.5 A member who is entitled to attend, speak or vote (either on a show of hands or on a poll) at a general meeting remains so entitled in respect of that meeting or an adjournment of it, even though a valid proxy notice has been delivered to the CIO by or on behalf of that member.

- 11.8.1 The CIO may, if the charity trustees so decide, allow the members to vote by post or electronic mail ('email') to elect charity trustees or to make a decision on any matter that is being decided at a general meeting of the members.
- 11.8.2 The charity trustees must appoint at least two persons independent of the CIO to serve as scrutineers to supervise the conduct of the postal/email ballot and the counting of votes.
- 11.8.3 If postal and/or email voting is to be allowed on a matter, the CIO must send to members of the CIO not less than 21 days before the deadline for receipt of votes cast this way:
 - (a) A notice by email, if the member has agreed to receive notices in this way under clause 21 (Use of electronic communication, including an explanation of the purpose of the vote and the voting procedure to be followed by the member, and a voting form capable of being returned by email or post to the CIO, containing details of the resolution being put to a vote, or of the candidates for election, as applicable.
 - (b) A notice by post to all other members, including a written explanation of the purpose of the postal vote and the voting procedure to be followed by the member, and a postal voting form containing details of the resolution being put to a vote, or of the candidates for election, as applicable.
 - (c) The voting procedure must require all forms returned by post to be in an envelope with the member's name and signature, and nothing else, on the outside, inside another envelope addressed to 'The Scrutinisers for the [name of the CIO]' at the CIO's principal office or such other postal address as is specified in the voting procedure.
 - (d) The voting procedure for votes cast by email must require the member's name to be at the top of the email, and the email must be authenticated in the manner specified in the voting procedure.
 - (e) Email votes must be returned to an email address used only for this purpose and must be accessed only by a scrutineer.

- (f) The voting procedure must specify the closing date and time for receipt of votes, and must state that any votes received after the closing date or not complying with the voting procedure will be invalid and not be counted.
- (g) The scrutineers must make a list of names of members casting valid votes, and a separate list of member casting votes which were invalid. These lists must be provided to a charity trustee or other person overseeing admission to, and voting at, the general meeting. A member who has cast a valid postal or email vote, must not vote at the meeting and must not be counted in the quorum for any part of the meeting on which he, she or it has already cast a valid vote. A member who has cast an invalid vote by post or email is allowed to vote at the meeting and counts towards the quorum.
- (h) For postal votes, the scrutineers must retain the internal envelopes (with the member's name and signature). For email votes, the scrutineers must cut off and retain any part of the email that includes the member's name. In each case, a scrutineer must record on this evidence of the member's name that the vote has been counted, or if the vote has been declared invalid, the reason for such declaration.
- (i) Votes cast by post or email must be counted by all the scrutineers before the meeting at which the vote is to be taken. The scrutineers must provide to the person chairing the meeting written confirmation of the number of valid votes received by post and email and the number of votes received which were invalid.
- (j) The scrutineers must not disclose the result of the postal/email ballot until after the votes taken by hand or by poll at the meeting, or by poll after the meeting, have been counted. Only at this point shall the scrutineers declare the result of the valid votes received, and these votes shall be included in the declaration of the result of the vote.

BREED STANDARD AND DESCRIPTION

Distribution The breed (377 herds) is found throughout the UK but predominantly in the South West and Midlands of England with others in Wales (23), Scotland including Orkney (22) and Ireland (4). There are also Longhorn herds in the EU (11) USA (2) Australia (2) and New Zealand (2)

Stature (typical)	<i>Bull</i>	<i>Female</i>
Mature weight (kg)	1000 – 1200	650 - 850
Mature height at withers (cm)	145 – 155	135 - 145
400 day weight (kg)	450 – 550	360 - 460
Birth weight (kg)	35 – 45	30 – 40

Colour Colour varies from terracotta red, rich red, through roan to red brindle and plum brindle with variable amounts of white, invariably a long white line down the spine - known as finch back - and preferentially a white patch on each thigh. Black animals with no red hair are not favoured.

Head The head is wide between the eyes with a broad muzzle and incisors fitting well against the dental pad. In the female the head can be longer and more feminine. The eye should be prominent but docile in the female - bold but placid in the male.

Horns Horns, when present, are fine but long with traces of pink towards the base; generally with a forward and/or downward sweep, often incurved towards the mouth [known as bonnet horns]. A percentage of females [c.20%] exhibit a distal upturn to the horn. Black horns are not favoured.

Body The body is long and level throughout; deep with well-sprung ribs and broad at the loin; full over the chine and with good length from hooks to pins. In the female hook bones are prominent with a gentle slope from hooks to deep wide pin bones whilst still maintaining a level top-line. The shoulder should be smooth, the brisket neat and in the male the sheath should not be too loose or pendulous. A well-filled second thigh is favoured but the double muscling myostatin allele should not be present in the genetic make-up.

Udder Females should have a well-attached, level silky udder with four well-placed medium sized teats.

Hide and hair The hide is exceptionally thick but pliable and supple to touch. Hair in all seasons is generally long and dense - silky in summer but rougher in winter

Legs Legs should be well placed with adequate turn at the hock and pastern joints whilst exhibiting straightness laterally both while standing and in movement. The Longhorn exhibits a bold smooth stride enabling it to cover the ground at an impressive pace.

Ease of Calving The Longhorn has one of the largest pelvic aperture to bodyweight ratios which along with its low birth weight makes it one of the easiest of calving breeds.

Docility The Longhorn is one of the world's most docile breeds - its horns belie a most placid nature.

	651 - 800 days old	£240.00 inc VAT

Bulls that are proposed to be kept for breeding must be inspected by a practising veterinary surgeon prior to registration. Application for registration should reach the Society office when the animal is between 365 and 800 days of age, or if the bull has reached the minimum weight of 431kg before it is 365 days old then registration may be applied for at that time. It must be inspected by a vet by 800 days of age and must have reached a minimum adjusted weight of 431 kg at 400 days, with 1kg per day adjustment for bulls over 400 days up to 631 kg at 600 days and 0.5kg per day adjustment for bulls between 600 and 800 days of age up to 731kg at 800 days. Applications must be made within one month of the bull being weighed and inspected by the vet. All bulls must adhere to the breed standards.

Hair samples of the bull to be registered, and it's sire and dam (where available, if not already held on file) must be submitted prior to, or in conjunction with the bull registration application form in order for parentage to be established before full pedigree registration will be approved.

NO PROGENY OF UNREGISTERED BULLS WILL BE ELIGIBLE FOR REGISTRATION

IT IS RECOMMENDED THAT BULLS ARE NOT USED IN A HERD BEFORE PEDIGREE REGISTRATION HAS BEEN APPROVED.

Only bulls that have been inspected and fully pedigree registered will be eligible to be entered for the Society's official show and sales or for pedigree classes at any other show.

Bulls will not be eligible for entry into the Herdbook after 800 days without special permission of Council. If Council approval is forthcoming, a late registration fee (currently £200.00 + VAT) will be payable in addition to the normal bull registration fee.

SUPPLEMENTARY REGISTER

From 1 January 1982 the Longhorn Cattle Society provided a Register for the admission into the Herd Book of Pure-Bred Longhorn female cattle that had not previously been registered for various reasons. Class A of this register was closed on 31 December 2009 to new unknown cows, but will remain open to the offspring of unregistered cattle that already have offspring registered with the Society.

CLASS A Female progeny of a pure-bred Longhorn cow with a non traceable pedigree having previously had calves notified to the Society, by a registered Longhorn Bull.

CLASS B Female progeny of a 'A' grade cow by a registered Longhorn bull.

CLASS C Female progeny by a registered Longhorn bull, and out of a Class B female, thus having two registered parents.

Female progeny by a registered Longhorn bull, out of a Class C female will be eligible for the Herd Book proper.

MALES Males are only eligible for registration only if both their parents are registered in the Herdbook proper.

SHOWS Steers and heifers (excluding heifers out of Class C) will be eligible to compete in Primestock Show Classes only.

The Council reserves the right to put cattle into a particular grade according to the evidence produced.

REGISTRATION Photographs identifying the animals applying for admission in the supplementary register should be submitted with the application

CANCELLATION OF PEDIGREES

Any breeder wishing to sell a pedigree registered animal through a commercial market without the pedigree, can do so by sending the relevant pedigree certificate with the request for the pedigree to be cancelled to the Secretary.

EMBRYO TRANSPLANT REGULATIONS

Prior to collection

- 1 The collection and transfer of embryos shall be carried out by a recognised operator or embryo transfer station or unit.

Collection

- 2 A copy of each Embryo Registration Form and Embryo Amendment Form must be sent to the Society within 30 days of collection, freezing, transfer etc.
- 3 If the service bull is not already DNA typed, hair samples should be sent to the office for DNA typing. This will be at the member's expense, charged at cost.
- 4 If the donor female is not already DNA typed, hair samples should be sent to the office for DNA typing. This will be at the member's expense, charged at cost.
- 5 If the donor female was artificially inseminated, or served naturally by a bull not owned by the owner of the donor female, the relevant insemination certificate or certificate of service must accompany the Embryo Registration Form.
- 6 A donor female may be bred to more than one bull at any one heat period only if the bulls concerned have been DNA typed and the DNA types are sufficiently distinct to allow their progeny to be separated.

Embryos

- 7 If an embryo is sold or transferred to other ownership by the owner of the donor female, either unfrozen, frozen or in a recipient female, the Society must be informed via a Embryo Amendment Form.
- 8 If at one and the same time more than one embryo is transferred to a recipient, those embryos must be of the same parentage.
- 9 Recipient dams need not be registered with the Society.
- 10 In calf recipients, or recipients with ET calves at foot can be sold at official Society shows and sales.

Embryo Transfer Calves

- 11 The member notifying the birth of a calf resulting from an embryo transfer must insert the letters "ET" in the extreme right hand column of the birth notification form, or by selecting the 'ET' option on the online registration form. "ET" will be inserted as a suffix. All notifications must be made within the standard time limits.
- 12 Should registration of an animal born as a result of embryo transplant be applied for, the animal must be parent verified by sending a hair sample to the office for parent verification. This will be at the member's expense, charged at cost. The animal will only be registered once the parentage has been verified.

Registration fees:

- 13 Registrations fees for heifers and bulls born as a result of ET will be the same as those detailed on the previous page of the Herdbook, and will be subject to the same late registration fees. Bulls will be subject to the inspection and weight regulation rules in force at the time of registration
- 14 Animals or embryos sold for export must be accompanied by a pedigree export certificate obtained from the Society.

Notwithstanding these regulations, all other Society rules and regulations will apply to the conduct and manner for any embryo transplant programme.

The Council reserves the right to amend, alter or make additions to these regulations as and when they think fit.

(Amended 2019)

IMPORT AND EXPORT REGULATIONS

Export certificates

All animals sold for export from the United Kingdom require an exportation certificate duly certified by the Society. Fees chargeable for exportation certificates shall be as agreed by the Council.

Breed requirements in respect of imported genetics

1. It is important for members importing genetics to arrange with vendors that all documentation required by The Longhorn Cattle Society in the UK is provided, thus allowing the acceptance of imported animals into the UK herd book.
2. It is also essential the vendor in the country of origin provides their domestic registration authority (if applicable) with details of genetics being sold for export. Please note the responsibility for ensuring this action is taken must lie with the breeder purchasing the genetics.
3. The Longhorn Cattle Society will enter into the main Herdbook, animals of the same breed, that are eligible for entry under the Society's breed criteria, without discrimination on account of their country of origin.

Listed below are the documents The Longhorn Cattle Society in the UK requires:

- (i) Five generation extended pedigree. In the case of embryos, both sire and donor dam must be provided.
- (ii) Official export certificate issued by the recognised registration authority providing full details of both breeder/vendor and purchaser.
- (iii) Should any female be in-calf, the same information as points (i) and (ii) above will be required in respect of the service sire/s.
- (iv) In the case of all genetic imports including live animals, service sires, semen and sires and donor dams of embryos, a single nucleotide polymorphisms (54K SNP) DNA profile must be provided (showing parentage verification.)
- (v) In the case of embryos, a certificate/form issued by the embryo company confirming the identity and details of the sires used and donor dams.
- (vi) An initial entry/export fee as decreed by Council is to be paid per animal, including service sire/donor dam/semen

SUPPLEMENTARY REGISTER FEMALES BORN IN 2022

No registrations

Longhorn Cattle Society Polled Register

The Longhorn Cattle Society Polled register was established in 1984 and is subject to the following rules agreed at the Society AGM 24th Nov 1984.

1. There is a straight forward grading up scheme to 31/32nds (ie 5 top crosses)
2. No bull may be registered until it is out of a fourth grade cow.
3. The first cross poll female should be the progeny of one pedigree Longhorn parent while the other parent shall be of pure beef breeding.
4. After the first cross each subsequent generation must be by a pedigree Longhorn bull.
5. No horned progeny of polled cattle will be eligible for registration in either herd book.
6. The word 'Poll' must appear as part of the name of every animal in the poll register.
7. Animals in the Poll register should be tattooed with the herd Number, followed by the letter 'P'. Beneath this should be the year letter (D for 1985), the individual number and finally the grade, A.B.C.D.P.
8. All breeders of polled cattle wishing to register them, must pay the Longhorn Cattle Society a separate herd Registration fee of £10 plus VAT.
9. All registrations must be made through the Longhorn Cattle Society Registrations Office at the same rate (currently £25+VAT) and under the same rules as for pedigree Longhorn calves.
10. It was further agreed at the subsequent Council Meeting that the Polled Register should not be promoted in any Longhorn literature and that the polled animals should not appear in the main Herd Book.
11. A list of animals registered in the Polled Register is available from the Society office.

Lincolnshire Show
Judge: Clive Davies
22 June 2022

My previous visit to Lincolnshire Show was some 52 years ago when my father judged the Hereford Cattle entry. To return to the eastern counties with this fairly long-established invitation was high with anticipation. Come the event, the weather was, hot!! However, the dry sunny weather allowed a high-quality entry of Longhorns to look superb.

The two bull classes were led by bulls with plenty of development and a great depth of muscling. The second-placed senior bull was impressive for his length and mobility whilst the runner-up junior bull impressed with his potential. This, the youngest bull on show must be watched.

Two superb breeding cows graced the start of the female section. The leader was impressive for her great construction, particularly through the hind leg. Although well-conditioned she boasted an impressive bull calf and was a very complete package. The second prized cow, with her striking heifer calf at foot, had great femininity and carries many qualities to progress this family and the breed. The senior heifer division was an interesting and competitive class with various options of placings available but the winner was a correct, well-constructed heifer, full of conformation. The runner-up was stylish and free-moving. The junior heifer class had a clear winner. This youngster had length, shape and moved very well. The second-placed heifer would have stood out more at most events had the leader not been available. The pairs class was altogether a strong demonstration of the quality and consistency that is now evident amongst the Longhorn breed. It may have been possible for many different orders to have been arrived at but the winners were strong and complemented each other.

The Male Championship was fiercely competed for. Length with shape dictated the winning line-up. The Female Championship was very competitive with the three first-prize contenders each proving their place for consideration. The sheer presence of the cow with calf took the accolade. A very complete entry but it was the promise and potential of the yearling heifer that moved her into the runner-up spot. There was little doubt that these two should take the Supreme and Reserve Supreme positions even in the company of the impressive males.

Many thanks to everyone for allowing me to be part of this outstanding display of the English Longhorns. It is unlikely that there were any of the breed present when I was last at Lincolnshire Show, but if showgoers then could see what we can now witness, they would be impressed. This is a great credit to all those that have worked so hard at developing this great breed of cattle. Thank you!!

LONGHORN SOCIETY SALES 2022

SOCIETY ONLINE TIMED SALE 5-7 APRIL 2022

The timed on-line auction of pedigree Longhorn cattle held from 5-7 April proved a success for breeders, as the sale saw a top price of £3500 for bulls and £2200 for females.

Leading the sale at £3500 was Gentons Vault from Mr B Facon, Banbury. This 14 month old bull, by Gentons Ramses EX92, out of Fishwick Quincey VG88 was bought by W McFadzean & Son from Ayrshire.

In the female section W McFadzean & Sons secured a number of lots, including the top-price Fishwick Urceolina from Messrs J Close & Son, Berwick on Tweed. This Heronbrook Ned Kelly daughter born in 2020 and out of the home-bred Fishwick Magnolia, sold for £2200.

Two senior heifers from J Close & Son sold for £2000 each and both headed to W McFadzean & Sons to join their earlier purchases. Both Fishwick Ullswater Lass and Fishwick Upsurge are also Heronbrook Ned Kelly daughters

Next at £1800 was the 2017 born cow Woolpit Rosalind from Mr & Mrs B&T Stanley, Derbyshire. With her March-born heifer calf at foot by Southfield Nuke, she was bought by Mr D Knox from Fermanagh, Northern Ireland. Also at this price was the 2021 heifer Wheatlands Ultragirl from Mr T Mills, Derbyshire. A Blackbrook Axiom EX95 daughter out of a home-bred cow, she went to Miss Z McDonald to add to her herd in Turriff, Aberdeenshire.

**SOCIETY ONLINE TIMED SALE
PEDIGREE SALES and HARRISON & HETHERINGTON
28 SEPTEMBER 2022**

The Society online sale, hosted by Pedigree Sales saw cattle being sold at the very opening of the sale and then spirited bidding at the end.

The first cattle to be sold were the four junior heifers entered by Mr H Hulland, Dumfries. These heifers, all by Fishwick Quasar King, sold via the 'buy it now' option at the opening of the bidding on Monday 26 September, selling to Ms Amy Kerr, Mr Jamie Halbert and Mr & Mrs A&J Riley, all for £1750. Highest priced in the junior heifers was Fishwick Vanity, a Fishwick Philanderer daughter who also sold to Mr & Mrs Riley and Fishwick Virginia also by Fishwick Philanderer who was secured by Ms Lisa Beery.

In the bulls, frantic last-minute bidding saw Mr B Facon's Gentons Valegro, by Treverton Kitson EX95, go to Mr & Mrs D&A Blockley, Bradford who also bought the top-priced cow Treverton KitKat EX94 from Ms RE Heard. Also in the cows, Bollin Timara from the Bollin Valley Partnership, Macclesfield found a new home with Mr T Mills, Derbyshire

The sale's new hosts and a concerted social media publicity campaign attracted a new audience to the Society and a number of post-sale enquiries resulted in further cattle being sold to new members.

**TANFIELD DISPERSAL SALE
28 MAY 2022
MELTON MOWBRAY MARKET**

Following a traffic accident in 2021, Mike and Christine Shearstone sadly decided to disperse their Tanfield herd on 28 May at Melton Mowbray Market.

The original foundation heifers were purchased in 2008 and their daughters remain in the herd, together with the main breeding lines of Linton, Raincliffe, Wellhead and Fishwick. The herd enjoyed good sale and showing successes and were sold with a good crop of spring calves at foot.

Bidding started strong straight out of the blocks, with stockbull Riverlands Oink, a Riverlands Knobbler son, selling for 5400gns to Mr J Winnington, Derbyshire.

Top price in the cows was five year old Tanfield Riff-raff and her heifer calf, selling to 2550gns to Mr A Buitelaar, Ireland who also bought Tanfield Oswego and Tanfield Toblerone, both with calves at foot. Next best price was Tanfield Quattro and her steer calf who sold to Mr T Mills, Derbyshire for 2250gns.

Just one senior heifer was on offer, with Tanfield Uno selling to Mr D Sargeant, Essex for 1420gns.

In the junior heifers Mr Buitelaar's eye was caught by Tanfield Volante, selling to 1240gns, ahead of Tanfield Viola who sold for 1120gn to local farmer Mr D Stannage, who also took home Tanfield Vice Versa and Tanfield Vodka for 1110gns apiece and Tanfield Vixy for 980gns.

HARFORD DISPERSAL SALE
30 JULY 2022
WORCESTER LIVESTOCK CENTRE

It was the fitting end to an era of Longhorn breeding for Mrs Pat Quinn, Cheltenham, Glos, who having established her Harford herd in 1976, dispersed to a top call of 4400gns at Worcester Livestock Market on Saturday 30th July.

The herd, which saw great success in the show ring right from its establishment winning many championships at the Royal Show, drew a strong interest from breeders across the UK all looking to purchase the depth of genetics on offer.

Leading trade at 4400gns was an April 2018-born female with her heifer calf at foot. Harford Selina 2 is by Wellhead Largo EX90 and out of the Dunstall Hector daughter Harford Lola. With a heifer calf at foot by Blackbrook El Nino VG88 and having been running with the same sire again, she met with spirited bidding and was finally knocked down to E J Biddulph, Tregaron, Ceredigion.

Next up for the cow and calf outfits was a 3000gns call which secured Harford Sunflower 2. Born April 2018 and by Wellhead Largo, this one is out of Blackbrook Tudor daughter Harford Orchid and again sold with a heifer calf by Blackbrook El Nino at foot. Taking this one back to Shrewsbury, Shropshire were Messrs J E Barker and Sons.

Next up at 2650gns was Harford Suzanna 2. By Wellhead Largo and this time out of a Gorse Monsignor daughter, this one sold with a bull calf at foot by Blackbrook El Nino to Jane Grant, Easingwold, Yorkshire.

Leading the senior heifers on offer was the 3100gns Harford Utopia, an April 2020-born Southfield Octane EX92 daughter out of Harford Questa, herself a Wellhead Largo daughter. Having ran with Blackbrook El Nino this one joined the top priced female on the day going home with previous buyer E J Biddulph.

At 2800gns the Blockley family, Bradford, West Yorkshire, secured Harford Uzzi. By Southfield Octane, this one is out of a Wellhead Largo daughter.

Meanwhile, top price yearling heifer was Harford Vanessa. Another Southfield Octane daughter out of a Dunstall Hector cow, she sold for 2350gns to previous buyer Jane Grant.

REGIONAL GROUPS

Longhorn breeders in different parts of the country have formed regional groups and organise herd visits, social events and herd competitions. They form a focal point for getting to know other like minded people and provide a potential for gaining stock and knowledge.

All the groups are run by volunteers and enthusiastic group members, young and old, experienced or complete beginners are always welcome.

Please do get in touch with your local support group co-ordinator and get involved in group activities

BULLS AVAILABLE VIA ARTIFICIAL INSEMINATION

The Longhorn Cattle Society offers semen from 14 pedigree Longhorn bulls, enabling members and commercial users to obtain all the benefits of the Longhorn breed

Royalties as detailed in each bull's listing, re payable for the registration of a bull calf. All bulls are subject to inspection by a veterinary surgeon before they are registered and any royalty payable is in addition to the veterinary inspection and Society registration fees.

The royalty payment for registration of a bull calf by a gene bank bull reduces to £50 on the death of the AI sire. Once the sire has been dead for five years, no royalty is payable on registration of sons got by AI. However the royalty payment on sons got by Premium bulls does not alter after the death of the AI sire.
