

TYPE CLASSIFICATION

Type classification has been standard practice in the dairy industry for many years and is seen as a clear, understandable method of grading grading cattle using independent assessors
By having your cattle graded you gain a better understanding of their strengths and weaknesses and you can then select and breed according to improve not only your cattle, but in turn the national population of Longhorns
Cattle are assessed for conformation and they are awarded an overall grade (eg VG, EX) and a numerical score.

Once an animal has been graded he/she does not need to be re-presented but can be put forward for re-inspection if the owner wishes.
No animal's score can go down on subsequent inspections, they can only either stay the same or go up. For this reason 1st calved heifers are scored more 'severely' to allow room for manoeuvre

Final score points range

Excellent (EX)	100 - 90
Very Good (VG)	89 - 85
Good Plus (GP)	84 - 80
Good (G)	79 - 75
Fair (F)	74 - 70
Poor (P)	<70

Animals can make the following maximum scores

FEMALES	MALES
Heifers - maximum 89 points	18-24 months - maximum of 89 points
2nd calvers - maximum of 89 points	24+ months - maximum of 97 points
3rd calvers - maximum of 93 points	
4th calvers - maximum of 95 points	
5th calvers - maximum of 97 points	

The scores of cattle scoring VG and EX in 2017 - 2021 are listed below

Animals listed within each score bracket are in alphabetical order. The order does not confer any priority.
