The Southfield Herd

The herd was founded in 1991 and although it is only 4 years since our last sale, numbers have once again risen to the point where we felt that the time has come to reduce the herd to a more manageable level. Our breeding policy has always been to aim for a modern beef animal that has retained the docility, easy calving, good mothering and longevity of the old traditional Longhorn

We are in a 4 year TB testing area.

The Southfield cattle in this sale represent a good selection of well bred cattle from some of the best blood lines available. We feel sure that there will be something to suit everyone.

We shall be holding a complimentary barbecue on Friday evening (10th August) for anyone wishing to come the night before, whether it is for a preview of the cattle or just a social evening. There are several travel lodge type hotels within 1 mile. A very efficient taxi service runs locally for anyone having had a little too much to drink! Or if you would like to park your wagon/trailer here overnight.

We look forward to welcoming you all to Southfield and whether purchasing or not we hope you have an enjoyable visit.

The Blackbrook Herd

The Blackbrook Herd of Pedigree Longhorns was established in 1989. Since which time our sole aim has been to breed animals of high genetic merit which combine conformation, longevity and temperament. To that end we have selected bulls with power and strength but which have also transferred good udder formation through the maternal traits of their dams.

It is of the utmost importance to us that these cattle can operate in the highly competitive commercial market place which exists today.

The sale will be an opportunity to purchase genetics from some of Blackbrooks most proven female lines, and by leading Blackbrook sires.

Following the sale of our dairy herd 4 years ago we have been building our Longhorn numbers.

Historically we have sold few females off the farm but we are now at our optimum size and are therefore able to release quality females for sale.

Royal Agricultural Society of England Show record to date

4 Breed Champions
2 Reserve Breed Champions
4 Junior Breed Champions
25 1st Place winners

(Most of which are still in the herd and have influenced the breeding of the cattle on sale today)

The Fishwick Herd

The Fishwick herd was founded in 1977 as a direct result of a decision to find an improved commercial suckler cow. The Longhorn bull Winthill John was purchased to use on a small herd of Welsh Blacks and Lincoln Reds.

With a quality pedigree bull on the farm, it seemed a natural progression to introduce some pedigree Longhorn females. Later in 1977 females were purchased from the Westward herd and also from the Grendon and Eyebrook dispersals in 1978. The rest, as they say, is history!

Three cows of particular note were Grendon Wendy 6th, Grendon Dulci and Eyebrook Rachel their descendants provided Fishwick with 12 RASE Female Championships, the Male Championship twice and the Reserve Female Championship and Junior Heifer Prize 5 times each over the past 22 years.

In addition Fishwick cattle have made a lasting impression in the sale ring, with the Breed Record price at auction for a Female with Fishwick Gambol selling at 3,600 gns. and the third highest Breed price for a bull when Fishwick Kosmic sold for 3,400 gns.

In more recent times bulls used have been Charnwood United and Carreg Cennen (see ref to Sires).

The Fishwick cattle entered for this sale represent a cross section of the successful families within the herd and can, in all probability, be relied upon to give purchasers the success and enjoyment that Fishwick cattle have in the past.
