Auction Rules

(Applicable to the Special Monthly Sales of Suckler Cows & South West Multi Breed Pedigree Beef Show & Sale)

1. An animal which is stated to have been served PD+ve not less than ten weeks at the date of sale is warranted as being in calf. If it proves to be not in-calf and a Veterinary Surgeon's Certificate to that effect is produced within **43 days** of the sale date, the animal shall, at the **Purchaser's** option (a) be returned carriage and any necessary PMT paid by the Vendor and the full purchase money and keep refunded: or (b) be retained by the **Purchaser** and a sum shall be fixed by the Auctioneers and paid by the Vendor to the Purchaser forthwith in full compensation for any loss sustained.
2. Where an animal is in-calf but does not calve until after 21 days of the due date, compensation at the rate of £7 per week up to the date of calving shall be paid by the Vendor to the Purchaser. Where claims become effective during the months of October to March (inclusive), compensation is increased to £14 per week. Such compensation shall be assessed from the due date of 41 weeks from the date of service, but shall in no case extend beyond twelve weeks. Where an animal is described as "running with the bull", no warranty as to the animal being in calf at the time of sale is given. No claim will be effective under this Rule unless made to the Auctioneers within one month after the due date.
3. All bulls 14 months and over at the date of Sale shall be warranted as capable of getting stock. Any claims to be made within 16 weeks of the day of sale. If the **purchaser** proves a breach of warranty then the **purchaser** may return the bull to the **vendor** who shall, at the **purchaser's** option, either replace the bull with another bull of equal value which is capable or and effective at natural service, or refund the purchase price together with such other costs and charges as the **purchaser** may be entitled to under these Conditions. Notice of a claim must be supported by a **veterinary surgeon's certificate** confirming that: a) the bull's incapacity or ineffectiveness is not the result of injury, accident or illness happening after the time of sale; and b) the **purchaser's** breeding stock are not responsible for the bull's incapacity or ineffectiveness.
4. Heifers sold as not in-calf shall be so guaranteed. Any claim to the contrary is to be made within 6 months and 5 days of the date of Sale and no later or before the heifer starts to calve, whichever is the earlier date. In the event of a heifer proving to be incalf at the **purchaser's** option the heifer may a) be returned carriage and any necessary PMT paid by the Vendor and the full purchase money and keep refunded (keep costs as detailed in 2 above); or b) be retained by the Purchaser and be allowed 25% of the purchase price by the Vendor to reflect the risk of calving the heifer.
