

**A short explanation of type classification scores**

Type classification has been standard practice in the dairy industry for many years and is seen as a clear, understandable method of grading cattle using independent assessors. By having your cattle graded you gain a better understanding of their strengths and weaknesses and you can then select and breed accordingly to improve not only your cattle, but in turn the national population of Longhorns.

Cattle are assessed for conformation and they are awarded an overall grade (eg VG, EX) and a numerical score.

Once an animal has been graded he/she does not need to be re-presented but can be put forward for re-inspection if the owner wishes. No animal's score can go down on subsequent inspections, they can only either stay the same or go up. For this reason first calved heifers are scored more 'severely' to allow room for manoeuvre

**Final score points range**

Excellent (EX) 100 - 90  
Very Good (VG) 89 - 85  
Good Plus (GP) 84 - 80

Poor (P) <70

**FEMALES**

2nd calvers - maximum of 89 points  
3rd calvers - maximum of 93 points  
4th calvers - maximum of 95 points
